

Eren Bal

Product (UX/UI) Designer

+49 15510 870794 | baleren98@gmail.com | Düsseldorf, NRW, Germany

Portfolio: eren-bal.com | LinkedIn: linkedin.com/in/erenbal

Summary

Multidisciplinary Product Designer with over 2 years of international experience across digital platforms, combining UX research, interaction design, and systems thinking. Adaptable, research-driven, and skilled at collaborating across cultures and teams to deliver meaningful user experiences.

Experience

Product Designer

Talkido – Remote, USA | Jan 2025 – Jun 2025

I design responsive web and mobile interfaces to improve communication for children with speech impairments. By running user tests, I improved usability and increased task success by 17%. I collaborate closely with co-founders and developers to ensure our designs meet both user needs and business goals.

Product Designer

Easypick – Oslo, Norway | Feb 2023 – Jun 2024

I crafted mobile and terminal experiences based on user research and stakeholder feedback, which helped drive 62% user growth and 17% market expansion. Working cross-functionally, I delivered features that balanced user needs with business objectives.

UX Researcher

Eczacibasi – Bilecik, Turkey | Jan 2022 – Jun 2022

I conducted user research for bathroom products, delivering insights that shaped design decisions and helped align stakeholders.
